SUMMARY

Self-taught Full-Stack Developer with hands-on experience building scalable MERN applications, ERPNext customizations, REST APIs, authentication systems, payment integrations, and responsive dashboards. Skilled in React.js, Node.js, MongoDB, Frappe/ERPNext, along with basic experience deploying personal projects to VPS using NGINX and domain configuration.

SKILLS

Frontend: React.js, JavaScript, Zustand, Context API, Tailwind CSS, DaisyUI, Axios, Recharts, Framer Motion

Backend: Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt, Socket.io, Cloudinary, Nodemailer, Stripe, Razorpay

Tools & Deployment: VPS(Basic deployment), NGINX, Vercel, Render, Git, Postman, REST APIs, Rate Limiting, RBAC

ERP / Python: Python, Frappe Framework, ERPNext, Custom Scripts, DocTypes

EXPERIENCE

ERPNext / Frappe Developer | Metanas, Saudi Arabia (Remote)

- Customized and configured ERPNext modules based on business requirements and workflows.
- Set up POS systems for restaurant and retail operations, billing, and invoices
- Created and managed DocTypes, Workflows, Roles, and Permissions in Frappe.
- Built custom scripts and backend logic using Python and JavaScript technologies.
- Managed POS Profiles, Payment Methods, item setup, invoices, and transactions
- Improved sales, stock, accounting workflows, client support, Bench, and ERPNext customization

PROJECTS

Elite – Hotel Booking & Management Platform

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Zustand, JWT, Razorpay

Live Demo: elite.ismailirshad.in **Source Code:** github.com/ismailirshad/hotel_management

- Built booking platform with separate **User, Admin, and Super Admin** dashboards.
- Built hotel booking platform with **3 roles**, payment integration, reservation management, and booking history
- Built **ERP accounting module** with revenue, expenses, profit analytics, charts, and expense dashboards
- Built hotel features including registration, room creation, availability, image uploads, and offer management
- Added **support request management**, centralized hotel controls, and platform-wide monitoring for Super Admin
- Improved frontend performance using lazy loading, memoization, protected routes, and optimized Zustand state management

Luxora - E-Commerce Store

Tech Stack: React, Zustand, Tailwind, Node.js, Express, MongoDB, Stripe

Live Demo: luxora.ismailirshad.in **Source Code:** github.com/ismailirshad/Luxora

- Built and deployed a full-stack e-commerce platform with JWT auth and Admin/Customer RBAC
- Implemented product CRUD, cart, order flow, admin pagination, and API rate limiting (>60 req/min)
- Integrated Stripe payments with checkout flow, automated coupons (₹20,000+), Cloudinary image uploads.
- Improved performance and production readiness using lazy loading, React.memo, analytics dashboards smooth UX animations

QuickChat - Realtime Chat App

Tech Stack: React, Zustand, Tailwind, Node.js, Express, MongoDB, Socket.io

Live Demo: quickchat.ismailirshad.in **Source Code:** github.com/ismailirshad/Quick-chat

- Built realtime chat platform with Socket.io, presence tracking, notifications, and media sharing
- Integrated welcome email system using Resend, improving onboarding experience and retention.
- Implemented Cloudinary-based image sharing for seamless media uploads
- Added presence tracking, notifications, profile updates, and improved UX
- Secured backend with JWT authentication, rate limiting, and protected routes.

EDUCATION

Bachelor of Computer Application (BCA), 2025

St. Philomena College, Mangalore University
