SUMMARY

Self-taught MERN Stack Developer skilled in building full-stack applications using React, Node.js, Express, MongoDB, Zustand, Firebase, and Socket.io. Strong in API development, authentication, real-time features, and deployment automation with AWS, NGINX, and secure authentication and deployment practices.

TECHNICAL SKILLS

Frontend: React.js, Zustand, Context API, Tailwind CSS, DaisyUI, Axios, Recharts, Framer Motion

Backend: Node.js, Express.js, MongoDB, Mongoose, Firebase, JWT, Bcrypt

Real-Time & Cloud: Socket.io, Cloudinary, Nodemailer, Stripe, Razorpay

Deployment & Tools: Netlify, Vercel, Render, AWS, Git, Postman, REST APIs, Rate Limiting, RBAC

PROJECTS

Luxora - E-commerce Store

Techstack: React, Zustand, Tailwind, Node.js, Express, MongoDB, Stripe

Live Demo: luxora.ismailirshad.in

Source Code: github.com/ismailirshad/Luxora

- Built and deployed a full-stack e-commerce platform with JWT auth and Admin/Customer RBAC
- Implemented scalable commerce features with product CRUD, category management, add-to-cart, order flow, admin-side pagination, and API rate limiting (>60 req/min).
- Integrated Stripe payments with checkout flow, automated coupons (₹20,000+), Cloudinary image uploads.
- Improved performance and production readiness using lazy loading, React.memo, analytics dashboards (Recharts), smooth UX animations, and AWS EC2 + NGINX + HTTPS deployment

QuickChat - Realtime Chat App

Techstack: React, Zustand, Tailwind, Node.js, Express, MongoDB, Socket.io

Live Demo: quickchat.ismailirshad.in

Source Code: github.com/ismailirshad/Quick-chat

- Built real-time messaging with Socket.io to enhance user engagement
- Integrated welcome email system using Resend, improving onboarding experience and retention.
- Implemented Cloudinary-based image sharing for seamless media uploads
- Added online/offline user presence tracking for live interaction
- Secured backend with JWT authentication, rate limiting, and protected routes.
- Integrated notification sounds, profile updates, and UX enhancements

InstaClone - Social Media App

Techstack: React, Zustand, Tailwind, Firebase

Live Demo: instaclone.firebaseio.com

Source Code: github.com/ismailirshad/insta-clone

- Built post sharing with like and comment functionality
- Developed Follow/Unfollow user system and a suggested users algorithm.
- Developed profile pages showing posts, followers, and following stats
- Implemented Firebase OAuth authentication with secure access.
- Integrated toast notifications and skeleton loaders for smooth UI experience

EDUCATION

Bachelor of Computer Application (BCA), 2025

St. Philomena College, Mangalore University
